

LARCC General Rules and Hours of Operation

Last modified 02/15/2010

Hours and days of operation:

Gliders and Electrics may fly 7 days a week, any time of day.

Powered aircraft may fly from 8:00 AM to 8:30 PM, 7 days a week.

General Rules:

1. A frequency pin is required to turn on your R.C. radio transmitter.
2. All flying members must comply with the Academy of Model Aeronautics (AMA) rules at all times.
3. No running of engines without restraints at all times in the pits.
4. No flying over the pits or the spectators.
5. No taxiing in or out of the pits if any pilot station is occupied.
6. No flying behind the flight line on our field.
7. The maximum sound level is 96db at 9 feet for all engines.
8. Long engine runs are to be done in the designated area only. (Helo pit area)
9. Utmost care must be taken in preventing engine fuels from contaminating the modeling grounds.
10. Absolutely no alcohol consumption at the field.
11. Please no litter on the field.
12. No unescorted visitors on the flight line.
13. Parents are responsible for their children.
14. It shall always be the full intention of all LARCC members to at all times respect our neighbors and other members.
15. HAVE FUN!
